

Omada[®] FAQ

To learn more and get started, visit
omadahealth.com/sourcewell

Thanks for helping get the word out about Omada. This document is designed to help you answer common questions, and you're welcome to email support@omadahealth.com for more information.

What is Omada?

Omada[®] is a personalized program that empowers you to achieve your health goals. Combining data-powered human coaching, connected devices, and curriculum tailored to your specific circumstances, the program is designed to help you build healthy habits that last.

What is the application process?

Individuals interested in Omada can complete the online application to find out if they meet the clinical enrollment criteria to participate in the program (see application URL at the top of the page).

Those who complete the application and are eligible to enroll will receive an email invitation to join the Omada program

Are family members eligible for Omada?

Yes, adult family members who are covered under the same health plan and meet the clinical enrollment criteria are eligible for Omada.

How much does it cost?

If you or your adult family members are at risk for type 2 diabetes or heart disease, and enrolled in a Sourcewell health plan, Sourcewell will cover the entire cost of the program.

Why is the Omada program being offered?

The Omada program is being offered to help eligible individuals proactively manage their health and achieve their health goals.

How does the Omada program work?

Omada is a personalized program that surrounds you with the tools and support you need to reach your health goals, whether that's losing weight or improving overall health.

- **A professional health coach** for one-on-one guidance. The coaches keep participants on track, on their best days and their worst.
- **A wireless scale** to monitor progress. Participants will receive this ready-to-use device in the mail, already synced to their private account.
- **Weekly online lessons** to educate and inspire. Participants are guided through online lessons that tackle physical, social, and psychological components of healthy living. Interactive games reinforce learning and help participants make connections to real-world scenarios.
- **A small online community** of peers with similar health conditions for real-time encouragement, sharing, and support.

How is the Omada program structured?

Omada presents a new area of focus each week covering nutrition, activity, sleep, and stress management—4 lifestyle behaviors that can directly impact weight and overall health. The weekly topic is supported by an interactive lesson, conversation with the health coach, and other program features.

In addition to this underlying framework, coaches can work with participants to identify areas that they want to work on: everything from understanding meal portion sizes, to engaging family and friends to help support them in making changes.

These personalized features can help participants achieve and sustain their unique health goals one step at a time.

How long do I have access to the Omada program? Do I get to keep the tools after the program ends?

Once enrolled, participants have access to the Omada program as long as they are still enrolled in a **Sourcewell pool** health plan. Participants can terminate the program at any time, but the program does not have a time limit. Additionally, all the devices that are provided by Omada during the program are meant for participants to keep.

What privacy measures are in place?

As a healthcare company, Omada takes security and participant privacy very seriously, and operates in accordance with all applicable privacy and data protection laws. The company employs physical, technical and administrative controls to protect personal information. You can learn more about Omada's use and protection of personal information by reading the [Privacy Policy](#) and [Terms of Use](#).

What personal information will be shared with a participant's group?

Group members can see each other's photo, first name, hometown, and introduction note. Concerning progress through the program, others in the group can see when a participant last logged in, their lesson completion progress, and a progress bar that measures weight loss as a percentage without sharing actual weight. No one in the group will be able to see a participant's private information such as weight or last name.

What are the specific steps involved in getting started?

Here's what interested individuals can expect.

1. Visit their organization's Omada application webpage (see page 1 for the URL).
2. Click the button to complete a brief application.
3. Individuals will receive an email from support@omadahealth.com within 2 business days letting them know if they're accepted. If accepted, the email will provide instructions on setting up their Omada account online.
4. Participants can set up their account on their own time. No strict deadline, but the sooner they set up, the sooner they can start.
5. Within a few weeks of completing account setup, participants receive a welcome kit in the mail with their scale.
6. Groups kick off each Sunday. This entails an introductory online message from the coach, the first lesson being "unlocked," and access to the group message board. (Please be advised that Omada may choose not to kick off new groups on the Sundays before or after major U.S. holidays when those holidays may interfere significantly with shipping or group momentum.)

What if individuals have questions?

If at any point in the process someone has questions about the status of their application or account, they can email support@omadahealth.com, call (888) 409-8687, or check out our help center articles at support.omadahealth.com.

The most common cause of confusion is that people have not seen their emails from Omada, so they may want to start by checking their inbox and spam folder for emails from the @omadahealth.com domain.
