

Water Labs

9502.0445. Subpart 1. Water There must be a safe water supply in the residence. **A.** Water from privately owned wells, must be tested annually by a Minnesota Health Department certified laboratory for coliform bacteria and nitrate nitrogens to verify safety. The provider shall file a record of the test results with the agency. Retesting and corrective measures may be required by the agency if results exceed state drinking water standards or where the supply may be subject to off-site contamination.

Water Testing clients are referred to the following water testing laboratories: Please contact them directly to request a kit.
