

MARSS Support Line

Sourcewell is pleased to pilot a new, complimentary service to our regional member schools: a MARSS support line. MARSS coordinators can call the support line and connect with an expert for guidance on a variety of topics. Additional support can be purchased for a fee.

Supported topics

- Assure available funding is being received through correct statewide reporting and clearing statewide errors
- Address any questions throughout the school year around MARSS/Ed-Fi reporting
- Review your MARSS submissions and Ed-Fi sync
- Assist district staff in interpreting MDE MARSS reports and identify which district staff can help verify reported data
- Assist with MARSS/Ed-Fi Comparison reports, running Ed-Fi through MARSS WES and comparing the results to complete MDE Ed-Fi Certification
- Consult on MARSS end-of-year results
- Monitor correspondence and other MARSS-related notifications published by MDE and communicate pertinent information
- Provide a monthly newsletter with upcoming regulatory due dates, recommended items to address, and any changes in reporting requirements
- Share our knowledge and experience with MCCC/Carl Perkins/Early Ed reporting
